snapp

Pay fast, in a snap.

Agentic work verification and payment orchestration

VELO x NOIR AGENTIC PAYMENT HACKATHON

Joshua Mistal (Lead) Juan Carlos Gan Aidan Tiu Daniel Cosare

THE PAIN

One transfer at a time.

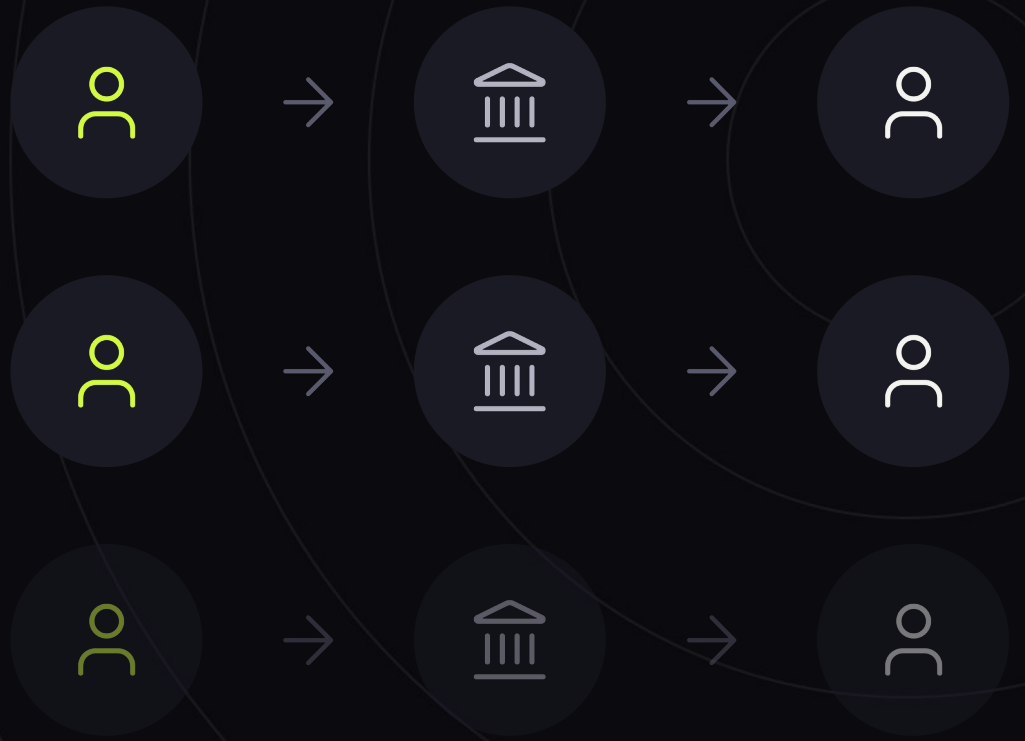

2

cutoffs a month

1

transfer per employee

- **Owner re-types every account and amount**
- **Employees can't check their pay**

x N employees

Prepare. Review. Snap. Settle.

The checking is thorough. The release is instant.

tick, tick, **SNAP**

Agent prepares. Owner releases.

AGENT

Flags the problems.

Sorts

Flags

Checks

OWNER

Approves exact amounts.

Locks

Signs

Approves

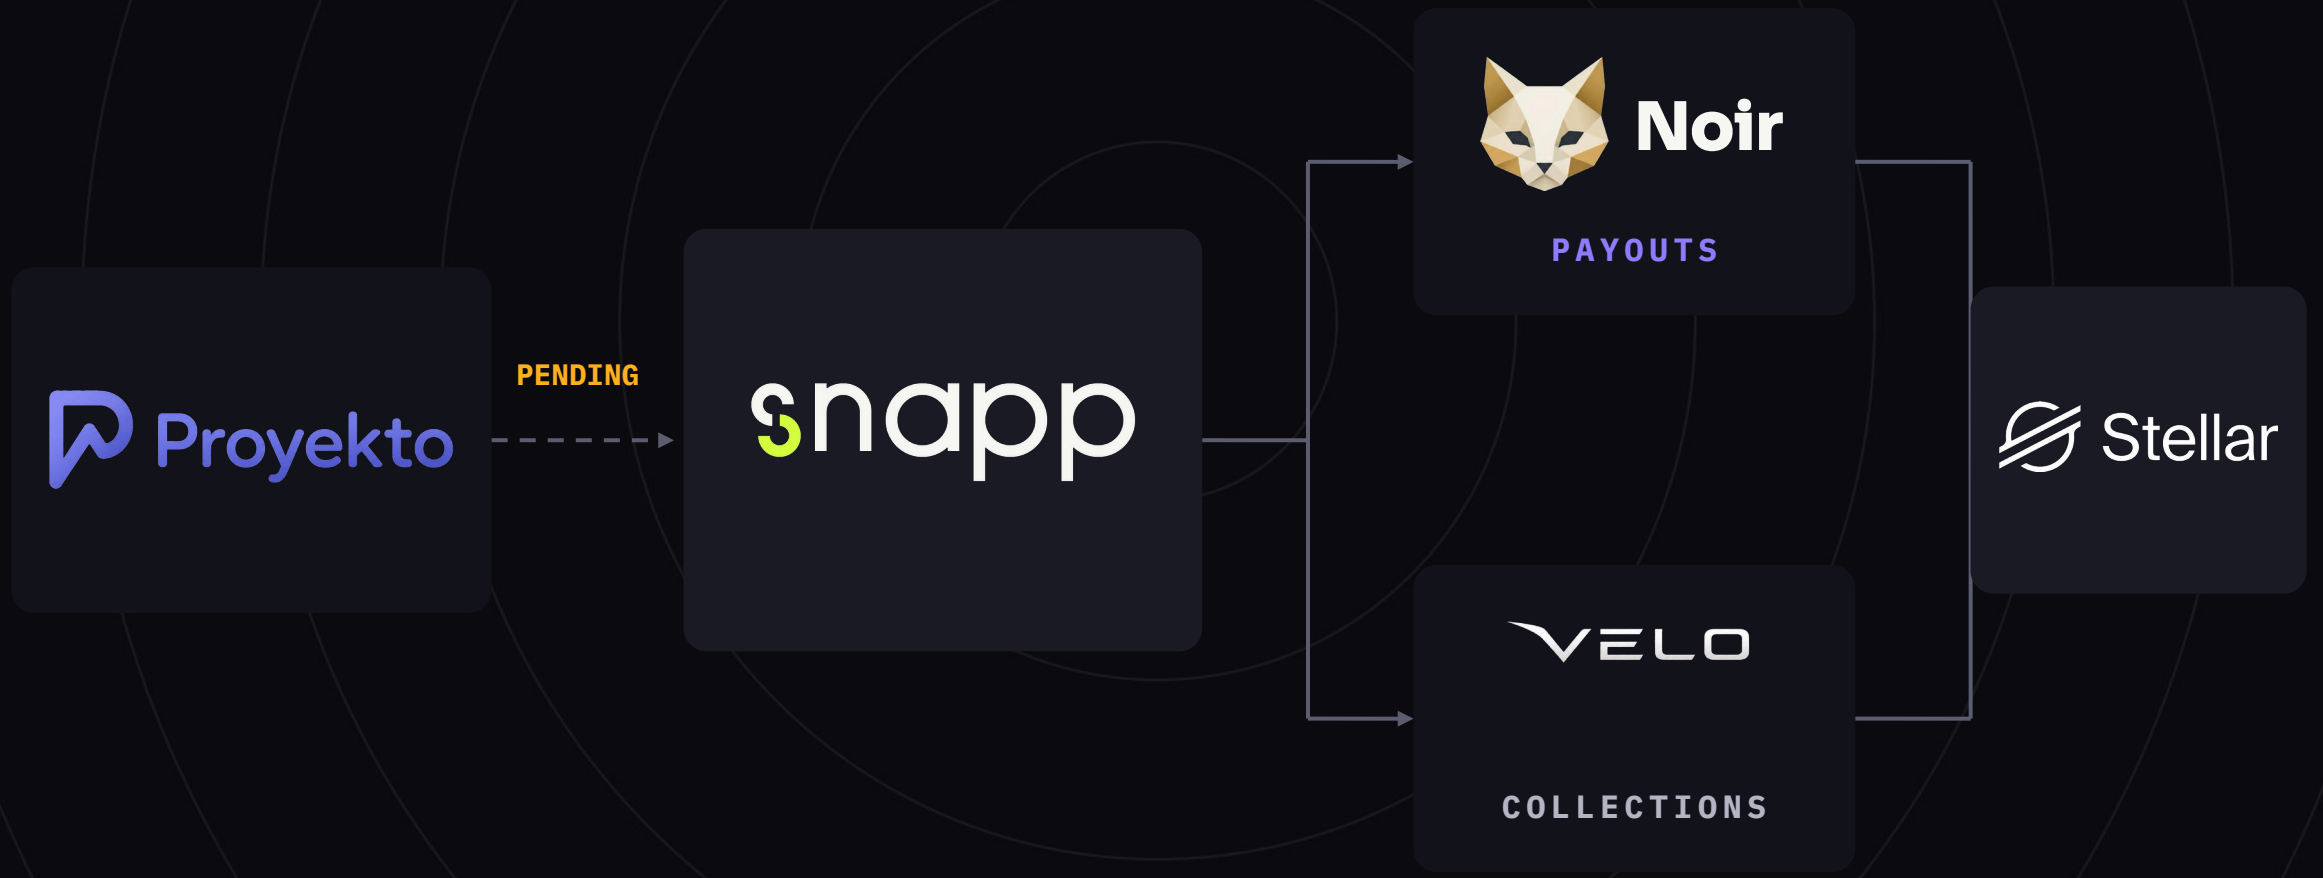

The agent never sets wages or changes recipients.

Every hour, traced to its work.

- **Hours**
- **Evidence**
- **Flags**

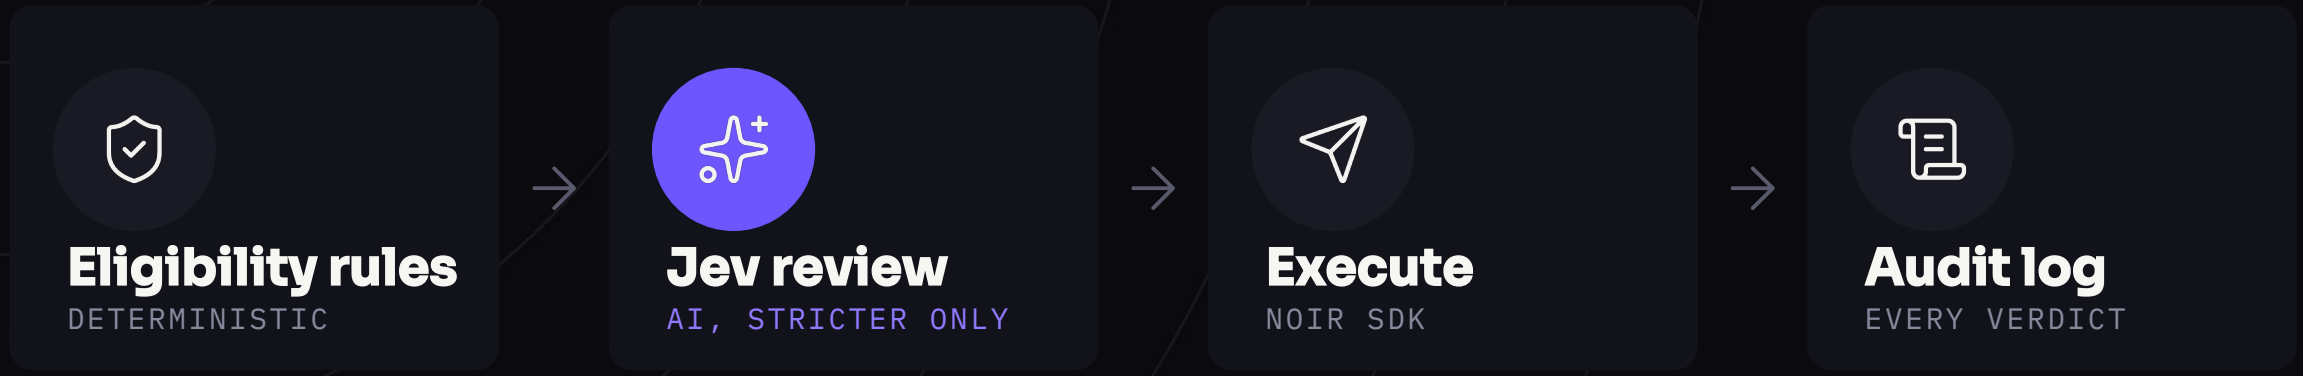

Works beside Proyekto.

AGENTIC PAYMENTS FIT

Execute, defer or escalate.

Jev can hold a payout back but cannot approve one.

EXECUTE

DEFER

ESCALATE

0.90
routine threshold

0.10
concern threshold

Thresholds are untuned starting points.

One approval, one payment.
